

Environmental Policy Statement

Established in 1950 J & J Thompson and Sons Limited is committed to continuous improvements in environmental performance and the prevention of pollution in order to minimise its environmental impact.

J & J Thompson and Sons Limited Directors recognise that virtually all the activities in industry have some impact on the environment. We believe that our performance as a well-recognised leading supplier and distributor of fresh foods & horticultural products, operating at Moss Lane, PR4 6XJ will be measured not only by our profitability as a business but also by our impact on the shared environment.

J & J Thompson and Sons Limited consider environmental regulations, laws and codes of practice in relation to our policy which focusses on the following:

- Minimising the environment impacts of our operations.
- Sustainable planning of energy needs including electricity, oil and water.
- Embracing renewable technologies.
- Prevent pollution of air, water and land.
- Conserve natural resources through effective resource planning.
- Optimising the use of raw materials.
- Minimise waste eliminating landfill waste and encouraging recycling through third party accreditation using Farm xs.
- Providing a suitable environment for wildlife habitats.
- Training of employees in environmental matters and their impact effects of their activities.
- Carry out planting to diversify wildlife.
- Actively promote the use of biological pest control and integrated pest management practices where practicable.

Responsibility of this policy lies with the Directors of J & J Thompson and Sons Limited.
